Experiment 12: InsureEasy – Online Insurance Management System

Aim:

To develop an online insurance management website using HTML, CSS, and JavaScript that allows users to view and manage insurance policies, while agents manage customer details and send policy due-date reminders.

Algorithm

1. Start and display the insurance website.
2. Allow users to view and compare insurance policies.
3. Provide forms to enter customer and policy details.
4. Display policy information and premium amounts.
5. Show reminders for upcoming or overdue payments.
6. Stop.

Code

```
<!DOCTYPE html>
<html>
<head>
<title>InsureEasy</title>
<style>
body{font-family:Arial;background:#f1f5f9;margin:0}
header{background:#174b75;color:white;text-align:center;padding:20px}
main{max-width:750px;margin:20px auto;padding:15px}
.card{background:white;padding:18px;margin:12px 0;border-radius:10px}
input,select,button{padding:10px;margin:6px;border:1px solid #ccc;border-radius:5px}
```

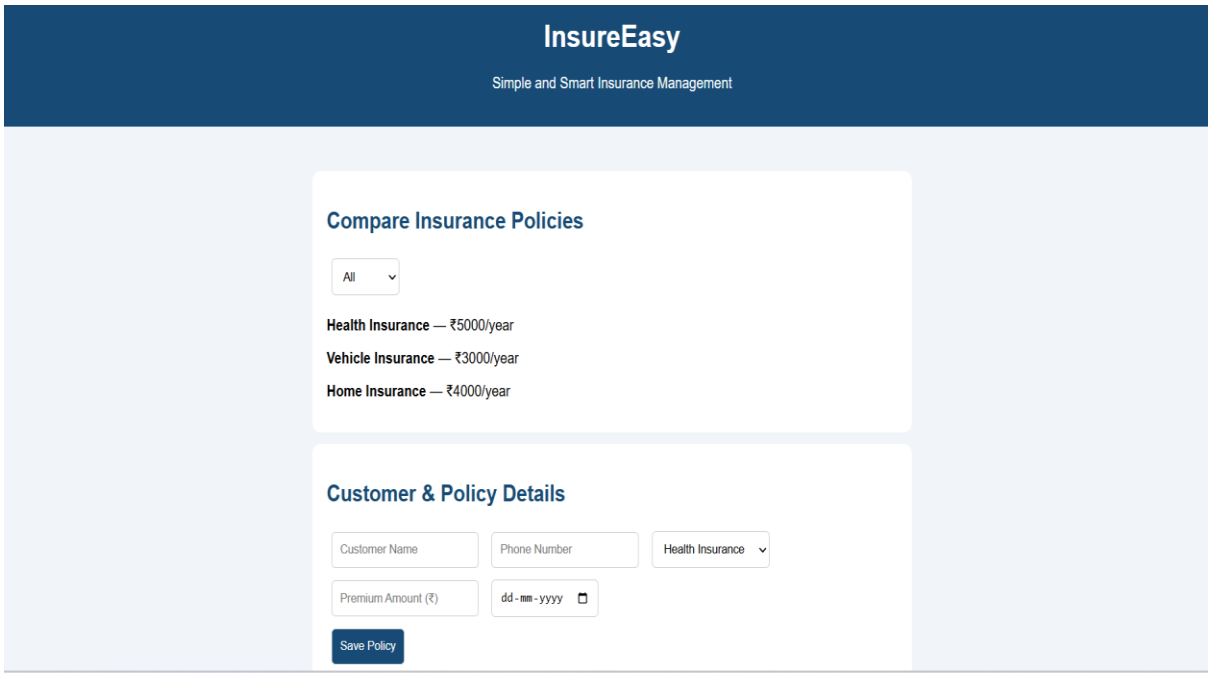

```
button{background:#174b75;color:white;cursor:pointer}
h2{color:#174b75}
</style>
</head>
<body>
<header>
<h1>InsureEasy</h1>
<p>Simple and Smart Insurance Management</p>
</header>
<main>
<div class="card">
<h2>Compare Insurance Policies</h2>
<select id="type" onchange="show()">
<option>All</option><option>Health</option>
<option>Vehicle</option><option>Home</option>
</select>
<div id="policies"></div>
</div>
<div class="card">
<h2>Customer & Policy Details</h2>
<form id="f">
<input id="name" placeholder="Customer Name" required>
<input id="phone" placeholder="Phone Number" required>
<select id="policy">
<option>Health Insurance</option>
<option>Vehicle Insurance</option>
```

```
<option>Home Insurance</option>
</select><br>
<input id="amount" type="number" placeholder="Premium Amount (₹)" required>
<input id="due" type="date" required><br>
<button type="submit">Save Policy</button>
</form>
</div>
<div class="card">
<h2>Saved Policies</h2>
<div id="records">No policies saved.</div>
</div>
<p id="msg"></p>
</main>
<script>
let data=[
{name:"Health Insurance",type:"Health",price:5000},
{name:"Vehicle Insurance",type:"Vehicle",price:3000},
{name:"Home Insurance",type:"Home",price:4000}
];
let records=[];
function show(){
let t=document.getElementById("type").value;
policies.innerHTML="";
data.filter(p=>t=="All"||p.type==t).forEach(p=>{
policies.innerHTML+=`<p><b>${p.name}</b> — ₹${p.price}/year</p>`;
```

```
});
}
f.onsubmit=function(e){
e.preventDefault();
records.push({
name:name.value,phone:phone.value,policy:policy.value,
amount:Number(amount.value),due:due.value
});
draw();
f.reset();
msg.innerText="Policy saved successfully!";
};
function draw(){
records.innerHTML="";
records.forEach((r,i)=>{
records.innerHTML+=`<p><b>${r.name}</b> — ${r.policy}<br>
Phone: ${r.phone}<br>Premium: ₹${r.amount}<br>
Due Date: ${r.due}<br>
<button onclick="remind(${i})">Check Reminder</button>
<button onclick="del(${i})">Delete</button></p><hr>`;
});
if(!records.length)records.innerText="No policies saved.";
}
function remind(i){
let r=records[i];
let days=Math.ceil((new Date(r.due)-new Date())/86400000);
```

```
msg.innerText=days<0?"Payment is overdue!":days<=7?
"Reminder: Payment is due soon!":"No immediate reminder required.";
}
function del(i){records.splice(i,1);draw()}
show();
</script>
</body>
</html>
```

Output

Result

Thus, the InsureEasy website was developed with insurance policy comparison, customer details entry, policy management, and due-date reminder features.
